For: ODOR ABSORBING CLOTHING

Serial No.: 07/798,288 Examiner: G. Hale

Filed: 11/25/91 Group Art Unit: 2407

Commissioner of Patents and Trademarks Washington, DC 20231

sir:

DECLARATION OF JOHN DAVID LOVE UNDER 37 CFR \$1.132

- I, John David Love, declare that:
- I am a U.S. citizen.
- I currently reside at 7216 Washburn, Washburn Mountain Loop, Greenwood, AR 72936.
- I currently operate two archery supply stores, one in Farmington, Arkansas and the other in Fort Smith, Arkansas.
- I have owned and operated archery shops for 10 years.
- I have engaged in the sport of hunting for approximately 30 years.
- 6. I have received several odor absorbing hunting suits manufactured by ALS Enterprises, Inc. with the intention of selling these products in my archery supply stores.
- 7. Before making these products available to my customers, I supervised extensive field testing of the odor absorbing suits by distributing these suits to experienced archery hunters.

- 8. The results of the field testing have shown the suits to be extremely effective in absorbing human odors. One comment which I received was that the hunter "felt like I could reach out and touch the animal because it couldn't smell me". Another comment I received was that a "deer passed within 10 feet of me and didn't smell me with this suit on".
- There has been a long felt need for a product in the archery industry to absorb the human odors which are detected by wildlife such as deer.
- scents to cover up or mask the human odor. These scents are only approximately 25% effective in covering up the human odor. However, the odor absorbing suit manufactured by ALS Enterprises, Inc. is approximately 98% effective in absorbing human odors.
- 11. This product effectively satisfies a long felt need in the industry and will likely be a significant advance in the industry.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both under \$1001 of Title 18 of the United States Code and that such willful, false statements may jeopardize the validity of the application or any patent issued thereon.

Dated: 1-13-92,

John David Love
